INTRODUCTION

It's Masa, a driven individual currently in her 5th year of computer engineering. Masa is an enthusiastic student who has a strong passion for technology and is interested in backend development. Always eager to expand her knowledge and stay up to date with the latest advancements in the field, Masa is continuously learning new things and embracing the ever-evolving tech landscape.

EDUCATION

An-Najah National University,

Nablus, Palestine

Bachelor of Computer Engineering

Sep 2019 - PRESENT

- GPA : High Good (3.34)

EXPERIENCE

Gaza Sky Geeks, Nablus- *Intern*

Sep 2022 - Dec 2022

Mobile Development technical training with Flutter, Firebase and SQLite.

SKILLS

Technical Skills:

- **Hardware Design and Implementation:** VHDL, Verilog and VLSI.
- **Microcontrollers:** Intel 8086 family, Arduino and Microchip PIC.
- **Compilers:** basics of scanners, parsers, optimizers and code generators.
- **Operating Systems:** Windows and Linux.
- **Software Programming languages & Frameworks**
 - Java
 - MySQL
 - C/C++
 - HTML
 - CSS
 - Javascript
 - PHP
 - Dart
 - MongoDB
 - NodeJs
 - Flutter
 - SQLite
 - Firebase

Core Skills:

- Result-Oriented: Focused on achieving goals and delivering successful outcomes.
- Composed and Resilient: Maintains composure and adapts well to challenges and setbacks.
- Strong Interpersonal Skills: Capable of building positive relationships and effective collaborations with others.

Projects

- Mommy's Bridge Software - Flutter and NodeJs (Graduation Project)

Mobile application to enhance communication between nursery schools, parents and teachers. The app provides real-time updates and secure messaging and a fun educational games section for children to engage in friendly competition.

[Mommy's Bridge - Google Drive](#)

- Kindergarten Management System - HTML, CSS and Javascript (Web Project)

Website to keep parents connected with their children.

[masamasri01/Kindergarten \(github.com\)](#)

- Job App - NodeJs

This is a backend app with API's that can manage job applications, affords applying for positions, attaching pdf files and performing Job searches. Overall, this backend solution aims to streamline and optimize the entire job-seeking and application process.

[masamasri01/Job-App \(github.com\)](#)

- Expense Manager -Flutter and SQLite

Flutter project with a friendly UI to save and calculate your expenses.

[masamasri01/Expense-App: sqlite Flutter \(github.com\)](#)

- Supermarket Management System -Java and MySQL

Manages employees, suppliers, customers and products.

[masamasri01/Supermarket-management-System \(github.com\)](#)

- Tour planner - Java.

Pick the matched tour guide who is available on the date you choose.
